JAGUA BEFORE-CARE & AFTERCARE SHEET

- ★ PLEASE FOLLOW THESE EASY INSTRUCTIONS TO GET THE MOST OUT OF YOUR HENNA EXPERIENCE AND TO ENJOY A LONG-LASTING STAIN

IMPORTANT NOTES:

AS A NATURAL STAIN, JAGUA CAN SHOW IN VARIABLE LEVELS OF BRIGHTNESS OR INTENSITY DUE VARIOUS

- ★ REASONS INCLUDING DIFFERENT SKIN TYPES AND TONES WHICH CAN AFFECT THE OUTCOME OF INKS. IN RARER CASES, THE STAIN MAY NOT DEVELOP. UNFORTUNATELY, WE ARE UNABLE TO KNOW WHETHER THIS MIGHT OCCUR WITH YOU, AHEAD OF TIME.

ALLERGIES: THOUGH JAGUA (AND OTHER NATURAL/ORGANIC PRODUCTS) CAN BE SAFE FOR TOPICAL USE ON SKIN, IT SHOULD ALWAYS BE NOTED THAT ALLERGIES CAN OCCUR. JAGUA IS A FRUIT AND THEREFORE CAUTION SHOULD BE EXERCISED IF YOU HAVE KNOWN ALLERGIES TO FRUITS OR FRUIT-BASED PRODUCTS.

★ BEFORE AN APPOINTMENT:

- TAKE A SHOWER OR BATH AND EXFOLIATE THE AREA/S WHERE THE JAGUA WILL BE APPLIED. THIS WILL ENSURE THAT YOU GET A DEEPER AND MORE LONG-LASTING STAIN

★ AFTER CARE:

- STEP 1:** ONCE THE JAGUA GEL IS APPLIED, ALLOW AT LEAST 2-4 HOURS TO DRY COMPLETELY. WHILE JAGUA GEL IS BEING APPLIED AND WHILE DRYING IT IS IMPORTANT TO BE AS STILL AS POSSIBLE TO AVOID SMUDGING AND DAMAGING THE TATTOO.
- STEP 2:** THOROUGHLY WASH JAGUA GEL UNDER WARM RUNNING SOAPY WATER WITH A SMALL PAPER TOWEL TO HELP MASSAGE THE GEL OFF AS THOROUGH AS POSSIBLE.
- STEP 3:** DON'T PANIC! THE STAIN WILL BARELY SHOW AT FIRST. IT WILL LOOK PALE AND BLURRY AT THIS STAGE.
- STEP 4:** WATCH THE MAGIC HAPPEN! ALLOW 12 TO 48 HOURS TO REACH THE FULL COLOR.

AFTER YOUR JAGUA TATTOO ACHIEVES FULL COLOR, HERE ARE A FEW STEPS TO KEEP IT LOOKING SHARP AND LONG LASTING.

- APPLY A THIN LAYER OF COCONUT OIL, COCOA BUTTER OR BEESWAX ON YOUR STAIN PRIOR TO ANY TYPE OF WATER EXPOSURE.
- APPLY SUNBLOCK BEFORE TANNING.
- AVOID FRICTION, RUBBING, SCRATCHING OR SCRUBBING OF ANY KIND ON TATTOO AREA.
- APPLY ANTI-PERSPIRANT OVER THE TATTOO AREA BEFORE ACTIVITIES THAT CAUSE YOU TO PERSPIRE.
- MINIMIZE EXPOSURE TO SAUNAS, STEAM ROOMS ETC.
- KEEP YOUR BODY HYDRATED AND SKIN MOISTURIZED.

IT IS VERY IMPORTANT THAT DURING THE TIME THE TATTOO IS DEVELOPING TO AVOID DIRECT CONTACT WITH VERY HOT WATER!
